EL PASO HOUSEHOLD FURNISHING CO.

Be Skeptical of Bargains

The great "removal" sales of clothing and others after that fashion are as a general proposition pure and simple schemes for unloading on the public a lot of unsalable goods. The fact that they are exploited as "bargains" is in itself suspicious. A meritorious article needs no bargain counter. When you invest in one of our tailor made garments you know just what you are getting.

You have examined the fabric, you feel the fit—and it costs you no more than the so-called bargain.

FEDERALS DEFEAT INSURGENT BAND

Column Escorting Prisoner to Chihuahua Attacked, But Victorious.

Chihuahua, Mexico, April 17.—Forty or more insurgents were killed and more than 100 were wounded in a battle fought between Saux and Santa Clara canyon, about 50 miles north of here, according to federal couriers. They brought orders to have hospital cars ready for federal wounded.

Several women and children are believed to be among the killed. Coming across from Casas Grandes on their way to Chihuahua with the prisoners and non-combatants under escort, followed by about 100 refugees, were attacked.

Five hundred insurgents under Gen. Orozco and Villa had been instructed by Francisco Madero to enter American territory and to be disarmed and held until they could be transported to the United States.

The matter was taken up Saturday at the request of president J. G. McNary and director J. A. Happer. The suggestion was first made by director Happer Saturday morning. He said that in view of the fact that the trouble had taken place in Agua Prieta at the risk of American property in Douglas, immediate and urgent action should be taken by the El Paso chamber of commerce to notify the president of the condition on this border and to request that more troops be sent here.

The meeting was taken up by president J. G. McNary at the First National bank and he agreed with Mr. Happer that such action should be taken at once and announced that a special meeting would be held Saturday afternoon to take such action. He said he would notify secretary Kinne to have a full directory present at the meeting and that a telegram would be prepared to be sent to the president of the meeting it was decided that the situation did not demand such urgent action and it was voted to leave the matter to the military and civil authorities here and at Fort Bliss, as such a request might cause an exaggerated view of the situation to be taken in the east, where the conditions are not fully understood.

Additional target practice grounds near Hueco Tanks was appointed. J. A. Happer was made chairman of this committee and a trip will be made by auto to Hueco Tanks to inspect the site of the proposed new range, which will be a part of the regimental post if it can be secured.

Five new members were admitted to membership in the chamber. They were Adrian Pool, Dr. W. Y. E. L. Peyton, Great Western Oil company and the Palace stores.

POWER COMPANY TO PROTECT PROPERTY

Guanajuato, Mexico, April 17.—The Guanajuato Power and Electric company, which supplies electric current to this city and to adjacent mining camps, and to a number of towns and haciendas, has purchased 100 rifles and 20,000 cartridges, under a special permit from the war department. Men will be armed to guard the company's hydro-electric plants, transmission lines and distributing stations. Any interruption of the company's service would put a stop to mining and milling in the Guanajuato district.

Special permission for the purchase of rifles and ammunition has been granted by the war department to some of the American mining companies operating in the Guanajuato district.

JUDGE ADRIAN POOL HOLDS FIRST COURT

Adrian Pool sat for the first time as judge of the corporation court this morning and disposed of several cases where the defendants pleaded guilty to being drunk, and assessed fines of \$1 each. He was about to do away with a precedent established by Tom Lea, who made it a rule never to fine a man over 50 years of age when arraigned on a charge of being drunk. This was in the case of Juan Ramirez, 72 years old. However, Pete Candelaria, the clerk of the court, called his attention to Lea's rule and he dismissed the case.

William Hickley, an Indian from the Sioux reservation, was fined \$5 on a charge of being drunk and disturbing the peace.

PEACE NEGOTIATIONS WITH DIAZ TEMPORARILY STAY FIGHT NEAR JUAREZ

A final ultimatum has been made to president Diaz by Dr. Francisco Vasquez Gomez, head of the Mexican revolutionary junta in Washington. Notice of this ultimatum was sent to Francisco, L. Madero, provisional president, at Guzman Saturday night, through the El Paso junta, with the advice that the insurgents army cease fighting until an answer could be received from president Diaz at Mexico City. The couriers bearing this information left El Paso Saturday night and the fact that fighting ceased Sunday has caused the El Paso junta to believe that the messages were received and the advice of Dr. Gomez heeded.

Earlier Day of Peace. Sunday—Earlier Sunday was a day of peace in northern Mexico. After the battle of Baucha Saturday. The cessation of fighting by the insurgents at and near Baucha, the local junta thinks, may be the result of a number of messages sent to Francisco L. Madero at Guzman by Dr. Francisco Vasquez Gomez, in charge of the revolutionary junta in Washington. These messages, which are supposed to contain terms of an ultimatum which had been presented to Diaz, were sent through the El Paso junta by couriers who are thought to have reached the insurgent ranks and maybe Madero's headquarters, at Guzman, late Saturday night and to have caused the withdrawal of the rebel troops from the vicinity of Baucha to wait until the time limit of the ultimatum expired. Who is as close as Guzman is not certain.

What this ultimatum was, its exact terms, the Mexican junta here refuses to divulge. Further than to admit that it referred to important concessions by Diaz, Federico Gonzalez Garza, at the head of the El Paso junta, refused to discuss the contents of the important messages which were transmitted through his office. The couriers were sent out late Saturday night and should have reached Madero before daybreak, the time set for the advance on Juarez.

Final Rebel Offer. It is believed that the ultimatum was a final one proposed by Dr. Gomez as a final overture to the federal government before the attack upon Juarez was made. That the move had received serious consideration at Mexico City is indicated by the fact that the fighting has not been resumed south of Juarez. It is also probable that president Diaz's attitude regarding further battles on the border has played an important part in the latest move of the two armies in the game of human checkers. No assurances have been received at the junta that the couriers reached their destination, but it is the belief of Secretary Garza that they made the trip successfully. The failure of the rebel army to move on Juarez Sunday is taken as evidence of this fact.

The couriers returned from the front Saturday night and reported that the fighting at Baucha had ceased. The junta was also informed that Madero's force, including Villa, Blanco, Orozco, Garza, and Raul Madero and their commands had withdrawn in the direction of Guzman because of the scarcity of water near Baucha.

Carrier Pigeon Returns. One of the carrier pigeons which were taken to Madero's camp to carry messages between the Mexican junta and Madero's camp, returned Sunday morning, but the contents of the message which it carried were not divulged by the junta members.

"DONT CROSS BORDER" SAYS TAFT; GOMEZ SAYS HE SAVED JUAREZ

Washington, D. C., April 17.—"Don't cross the American-Mexican border line under any circumstances; if necessary to communicate across the line do it by civilians," was the purport of instructions telegraphed by Maj. Gen. Wood, commanding the army, to the army command in Texas.

This explains the use of two civilians in carrying a message to the Mexican federal commander from Col. Shunk, commanding the United States troops at Agua Prieta.

Gen. Wood has telegraphed instructions that if either the federal or insurgent forces of Mexico enter American territory they are to be disarmed and held until they can be transported to the United States.

Anxiety over developments in Mexico endangering the lives and property of Americans near the boundary line has caused the importance of the crisis here last night.

Taft Receives Bulletin. President Taft received bulletins at the white house from the war department regarding the advance of the federal forces upon the insurgent forces at Agua Prieta.

Dr. Vasquez Gomez was in constant communication with the insurgent junta at El Paso, Tex., which sent to him messages from the insurgent army advancing on Juarez. Mindful of the incidents of last week around Agua Prieta, Dr. Gomez telegraphed a message of warning to his people to avoid injury to Americans or their property. He was advised that the insurgents had mobilized practically their entire army in Chihuahua, under F. L. Madero, Jr., within striking distance of Juarez.

Messages From Gomez Prevent Attack. The messages that Dr. Gomez sent to the insurgent forces in a manner still unexplained here, prevented the attack last night on Juarez. He attached much importance to the pause of the insurgents, and other Mexicans drew much hope from the occurrence. Dr. Gomez was said to be arranging for an armistice to take effect immediately by which peace negotiations might be instituted near Juarez.

Senior Oscar Breniff and senior Esquivel Obregon, with two business men of Mexico City, who came here unofficially to confer with Dr. Gomez about peace, left last night for the camp of Francisco L. Madero, Jr. Both were in conference with Dr. Gomez before they left and received passports through the insurgent lines and letters of introduction to the rebel chief. They also called on senior de Zomaceni the Mexican ambassador yesterday.

They declined to discuss the result of the mission here, but it was learned from other sources that they were unable to obtain anything definite in the way of peace conditions and decided to confer with the rebel chief in person.

Avert Life Loss in Juarez. Dr. Gomez was in communication with Mexico City in an effort to avert a great loss of life at Juarez, which he believed to be inevitable unless the federal garrison there is withdrawn or an armistice arranged.

Dr. Gomez hopes that the serious situation at Juarez may be averted by concessions from Mexico City.

The Official Messages. The war department's message on the Agua Prieta situation follows: "Douglas, Ariz., April 16, 1911. "Authentic reports indicate action 10 miles south of here between the advance guard of federal troops, numbering about 1200 and the insurgent scouts. In all probability considerable engagements will occur not later than tomorrow. The insurgent forces are holding Agua Prieta and are at present engaged in digging trenches parallel with the national line and about 200 yards south of the national line. I have warned the insurgents about using these trenches in a manner subjecting United States citizens on United States territory to danger.
